

"Our grand business is not to see what lies dimly at a distance, but to do what lies clearly at hand."

That fogs do not obscure your financial duty, you will probably admit. You know whether that duty is done or not; it should include depositing part of your surplus earnings, thus providing ready money for sudden calls, also a substantial provision for the future. Do not do to live, but live to do this duty through a liberal interest account in this bank.
